

RACKS, SHELVING & EQUIPMENT

Selective Rack

Selective

Rack

Our roll formed system is the most popular and versatile pallet rack in the industry, providing efficient use of space and immediate access to every load stored. These racks are also available in debris-resistant, easy-to-clean structural steel that's ideal for food handling environments.

- Easy one-step beam installation with no special tools or training required.
- Beam and column locking system provides exceptional protection against damage, tampering, and accidental disengagement.
- Durable powder coating and baked enamel finishes ensure long life even under the most demanding conditions.
- All welding performed by American Welding Society (AWS) personnel.

Wire Decking

Painted Steel Wire Decking

Easy to install wire decking helps make the most of racking units. Drop decking in place over rack beams and you have instant storage. 2" x 4" steel mesh has a 2,500-lb. capacity. Increases sprinkler effectiveness, helps retain smaller items and allows for quick visual checks of inventory. Choose from 36"D with 3 channels, 42"D, 44"D, or 48"D with 4 channels. 1-1/2" x 1-1/8", 12-gauge channel size. Gray polyester paint finish. Custom sizes available. FACTORY QUICK SHIP-

Steel Shelving

Hallowell Hi-Tech Shelving

Hallowell Hi-Tech Industrial grade steel shelving continues a tradition of quality. Our Hi-Tech Shelving line has the strength needed to handle most industrial applications and versatility for today's modern facilities. Hi-Tech Shelving is available in open or closed style as a starter or adder unit and a full compliment of accessories including full dividers, partial dividers, label holders, swinging doors, post splices for multilevel installations and foot plates are available to complete your system.

- Flush beaded post permits straight-in/straight-out shelf installation, shelf changing and shelf loading. No tilting needed
- Full use of shelf area
- Shelf clip fit snugly into post slots to hold shelves securely in place
- Common posts between units

Boltless-Rivet Rack

Rivetwell

Boltless

Shelving

Boltless shelving is designed to maximize storage space and minimize installation/set-up time. All components are engineered to attach snugly to one another without the use of loose fasteners. This unique design has rivets which are factory attached to all left-to-right and front-to-back beams. The rivets align with keyhole slots in the vertical posts. Once tapped into place using a standard rubber mallet, the units are tightly assembled providing maximum strength.

- Single Rivet Units
- Double Rivet Units
- Record Storage Units
- Automotive Storage Units
- Particle Board decking

Plastic Shelving

Shelving, Polymer (MetroMax®)

Now featuring MICROBAN® Antimicrobial Product Protection! Microban® Antimicrobial technology, built into the removable polymer mats, inhibits the growth of bacteria, molds, mildew, and fungi that cause odors, stains, and product degradation. Your shelving will be cleaner between cleanings!

These MetroMax Shelves come complete with frame, open-grid or solid shelf mat, and four wedge connectors. Constructed of polymer and Type 304 stainless steel.

MetroMax Outgassing Characteristics

A comprehensive evaluation of the polymers used in the MetroMax Shelving System, conducted with respect to ASTM D-595 and NASA SP-R-0022A standards, has determined the Collected Volatile Condensable Material (CVCM) is less than 0.08%. As there is no standard for interpreting the data for uses in Cleanrooms or Clean Areas, since Federal Standard 209E does not directly address the requirements for outgassing or the contribution of outgassing to Cleanroom classification, the results indicate the tendency for the MetroMax Shelving system to exude volatiles is relatively low, and should not contribute significantly to the airborne particulate contamination of a Cleanroom or Clean Area.

Wire Shelving

Chrome Wire Shelving

Durable wire shelving stores many different items in your warehouse or office. Open wire design improves visibility and won't accumulate dust and dirt like solid shelving. Shelves hold up to 800 lbs. each and adjust on 1" centers. Posts are double notched on 1" centers for easy, accurate shelf placement. Starter units include 4 posts, 4 shelves, and 16 tapered split sleeves. Add-on units come complete with 2 posts, S-hooks, 4 shelves, and 8 tapered split sleeves. Add-on units can be used end-to-end, back-to-back, or at right angles. IN STOCK.

Mezzanines

Turn unused air space into additional work or storage space with a free-standing mezzanine or with a high-rise shelving-supported mezzanine. Modular Mezzanines are precision engineered for easy assembly and can be easily reconfigured when floor plan changes are necessary. Integrate Modular Mezzanines with our other systems to provide the complete storage solution. Available decking surfaces include solid and perforated channel grating, bar grating, and solid decking.

Steel Lockers

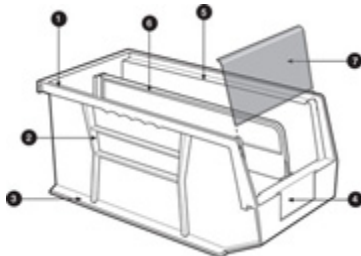

Premium KD Stock Lockers

Hallowell® Premium KD Lockers are available in five popular colors for immediate shipment from our Memphis, Tennessee distribution center. Lockers can ship knock-down in 48 hours or fully-assembled within 5 working days of receipt of order.

Features and Specifications:

- Stainless Steel recessed handle with gravity latching for single, double and triple tier models
- Single point thru-the-door friction catch door pull/padlock hasp at six tier models
- 16 gauge louvered doors (18 ga. for six tier)
- 24 gauge solid body parts
- Hat shelf at single tier
- Standard with 6" legs (optional without legs...specify "no legs" when ordering)
- Coat rods are available for single tier at anominal cost

Parts Bin

Ultra Stack and Hang Bins

Organize your inventory with strong injection molded plastic bins. Front, back and side grips for easy handling. Built in rear hanger allows bins to hang from louvered panels. Optional clear plastic window increases capacity, provides quick view of contents. Dividers maximize flexibility and keep contents organized. Wide stacking ledge and anti-slide lock keep stacked bins steady and prevent forward shifting. Waterproof bins resist rust and corrosion. Large molded slots for ID labels. Autoclavable up to 250°F and resistant to extreme cold. Available in Blue, Yellow, Red, Green, Ivory and Black. Please specify color.

PERFORMANCE FEATURES AT A GLANCE:

- Available in 17 sizes
- Bins are made from heavy duty, virgin, high density FDA approved polypropylene / polyethylene
- Large multiple label slots provide easy label insertion part

identification

- Extra wide stacking ledge assures stability for high stacking
- Reinforced design adds strength and prevents spreading
- Will not rust or corrode, unaffected by weak acids and alkalis, and are waterproof
- Interchangeable with other manufactured brands of bins

Shelf

Bins

Replace wornout corrugated bins permanently with these tough, durable, high density plastic bins. Quantum Shelf Bins are the industry standard for quality. These durable polyethylene bins feature a molded in label holder, built-in rear hanglock which allows bins to tilt out for complete access. A wide hopper front allows complete access to the contents. Edges are reinforced for added strength. They are designed for 12", 18" and 24" deep shelf units, racks or standard shelves. Bins are waterproof, impervious to most chemicals and unaffected by grease or oil. Available in Blue, Yellow, Red, Green, Ivory and Black. Please specify color.

Storage Cabinets

Steel

Storage

Cabinets

Features:

- Functional, durable and adaptable.
- Gives maximum protection to tools, dies, delicate instruments, supplies, and personal belongings.
- Neat and attractive in appearance.
- Designed for government requirements.
- Color: Parchment
- Cabinet is fabricated from heavy gauge steel for appearance and durability.
- All metal parts are precision engineered. No bolt heads show in front or on side panels.
- Positive three-point locking (top, center and bottom) and theft resistant hinges for security.
- Shelf support strips are integral part of cabinet.
- chrome-plated locking handle has built-in groove cylinder lock.
- Doors swing out quietly a full 180° and are "HAT" section

Hand Trucks & Pallet Jacks

JET Pallet Trucks

Move heavy loads up to 6,000 lbs. Handle includes a three-position (raise, lower, neutral) lever for fingertip control and one-hand operation. Narrow 200° turning radius eases maneuverability around pallets and dock boards. Other features include: solid steel lifting rods, polyurethane covered steer and load wheels with double sealed bearings, grease fittings and oilless bearings, and overload bypass protection valve. Two-year warranty on pump. Made in China.

HEAVY-DUTY PREMIUM 6,000-LB. CAPACITY TRUCK.

Fork height: 2-7/8" to 7-3/4". Includes: ergonomic cushioned handle, articulating axle, special lowering valve to control rate of descent, and rounded fork tips with nylon rollers. 7" steer wheels, 2-7/8" load wheels, 6-1/4" wide forks. SPECIFY FORK SIZE: A - 21"W x 36"L, B - 21"W x 42"L, C - 21"W x 48"L, D - 27"W x 36"L, E - 27"W x 42"L, F - 27"W x 48"L. F - 27"W x 48"L IS IN STOCK.

5,000-LB. CAPACITY LOW-PROFILE PALLET TRUCK.

6"W x 48"L forks raise load from 2-1/2" to 6-1/4". Cross-welded steel plates reinforce the heavy-gauge frame. Tapered and inclined fork tips ease pallet entry/exit. 6-1/4" steer wheel, 2-1/2" load wheels. 6" wide forks. IN STOCK.

Milwaukee Steel Hand Trucks

Five styles to choose from with various handle types for your loading applications. Welded steel construction with 1", 15-gauge tubing. Wheel types-(SP) 8" x 1-3/4" or 10" x 2-3/4" semi pneumatic, (SR) 10" x 2-1/2" solid rubber with polyolefin hub, (FP) 10" x 3-1/2" full pneumatic. Frames are 14"W. Baked on red powder finish. IN STOCK.

Ladders

Safety

Rolls easily to and from work areas. 1" steel tube frame and handrails provide structural support. Handrail is 24" high on 2-3-step ladders, 30" high on 4-12-step ladders, and 42" high on 13-16-step ladders. 14"D top platform is standard, 21" and 28"D platforms are also available. 7"D stairs are available with perforated tread for general-duty use or Grip Strut® stair tread for oily or wet environments. Two- to five-step ladders have retractable casters while the 6-16-step ladders have four casters with floor locking mechanisms. 2-, 3-, and 4-step ladders (without handrails) ship fully assembled. All others ship unassembled to save freight. Ladders are packaged to reduce the risk of shipping damage. Assembled, welded version available on request. Meet OSHA standard 1910.29, and ANSI standard A-92.1-1971. Gray/green enamel. SELECTED MODELS IN STOCK. Others FACTORY QUICK SHIP-.
